

WASHINGTON CONSERVATION CLUB
Outdoor 50-yard Archery Range Rules

Revised November 29, 2010

THIS RANGE IS PRIVATE AND IS FOR MEMBERS ONLY. Non-members may shoot here only when accompanied by a member. All others are trespassing and will be subject to arrest and prosecution.

Follow all safety rules of the National Bowhunter Education Foundation.

No shooting is allowed before 8:00 a.m. All shooting must stop at sunset.

Use the old foam target for broadheads. DO NOT SHOOT BROADHEADS INTO THE BAG TARGET!!!!

Inspect your equipment before shooting. Nocked arrows must always point downrange. Never stand in front of a shooter, not even if you are off to the side. Absolutely no horseplay on the range. Alcohol is prohibited on all Conservation Club Ranges.

Exercise common courtesy when using the range. If more than one person wants to shoot, take turns, as there is only one target.

Shooters must dispose of (transport away) any target material or holder they use. If you haul it in, haul it out. Small trash items can be placed in barrels. Do **NOT** stack items on the ground around the barrels. Clean up the range building and grounds before leaving.

To report problems/concerns or if this range needs attention, contact the Club at (812) 610-2490.
